

## Fibre Optic Splice and Prep Kit

### Miller Fibre Tubing Scoring Tool

- One step stripping tool
- Suitable for cutting outer insulation, braid, dielectric and inner cores
- Able to perform window strips

### Fibre/Splice & Connector Cleaning Fluid

- Ideal for cleaning ferrules in connector bulkheads as well as individual fibre optic connectors.
- This fast drying, optical-grade cleaning fluid can be used with wipes or cleaning sticks for wet/dry cleaning without residue

### Extra Durable Cleanroom wipes

- For cleaning fibres before splicing

### IPA Pre-saturated Cleaning Wipes

- Excellent for removal of fluxes, light oils, polar soils, dirt inks, oxides and gel

### Miller Dual Hole Stripper

- Recommended for stripping 250um coated fibre and 900um tight buffer tube
- 0.14mm laser drilled hole
- Soft plastic-cushioned handle grip
- Smooth, clean stripping action

### Miller Round Cable Slitter with Hook

- Removes outer jackets and insulations from 4.5mm to 28.5mm O.D
- Stripping action both circumferential and longitudinal

### Small Fibre Optic Disposal Unit

- Safe solution to disposing of cleaved fibre ends
- Perfect for on-site installers

### Miller Kevlar Shears

- Serrated blades and high leverage cutting
- Long cushioned handles
- Miller scissors
